TOTALS	230	269	472	338	232	473	187	230	349	426	371	421	251	169	220	430	619	654	571	1435	1587		9,934

With the change in grade distribution, 6th and 9th grade estimates for 2011 are most likely high. This is due to the new configuration and the lack of trend data on which to base the estimates. For planning purposes, it is better to estimate high, the projections will be reevaluated before they are used for staffing purposes.
