Notes:

Indicates space allocation considered for "model" school

- "480 School" information was taken from JEFSCO Public Schools Facility Planning and Construction Management's Educational Spec Space Program, based on a 480 capacity school.
- DLR Program is modeled for a 3 section school with a capacity of 495.
- Admin area includes principal, asst. principal, rec./waiting, secretary, conference room, clinic, clinic toilets, psychologist, social worker, counselor, work room, staff lounge, storage, and staff toilets.
- Square footages are based on the best information available to Gould Evans.
- Schools predominately have converted the stage for use as long-term storage.
- K-5 and K-6 models were based on comparing the "480", DLR, and the best practices within USD 497 to assign a model to compare to.
