HOW CAN YOU PARTICIPATE?

Parents and caregivers have a unique and extremely important role in the LICC: to offer a perspective of a caregiver who has a child with a delay or disability and to use that perspective to support the needs of children and families in your community.

What would you do during a meeting?
- Speak up. When you offer your perspective as a parent, you can prompt constructive discussion on the issues. You may help others to see alternate possibilities.
- Offer suggestions. Your perspective may help other receiving Early Intervention services.
- Express satisfaction or suggest changes. Share with the LICC what has worked for your family along your early intervention journey. We also want to hear what didn’t work so well so we can make a change and do better for our community!
- Build partnership and leadership. The LICC is an opportunity to introduce you to other parents or professionals in our community.

Feel free to make yourself comfortable on zoom - keep your camera off or on, feed or play with your child while we meet... we accept you just as you are.
