Complete BOY portion of Site Council survey: A majority of those present had a clear sense of purpose of the role of site council

Review School Initiatives/Goals for this year: Dr. Comfort gave an overview of the goals including the following:

1. Developing CFAs to get a summative assessment score of 80% twice a quarter in ELA and Math.
2. Going deeper with WICOR strategies in AVID, focusing on marking the text and focused note taking
3. Starting up Schwegler PRIDE groups after winter break to build relationships between grade levels and staff
4. Continued work on building climate goal: thriving culture committee continues to meet to address the building culture and appearance

Goal review/questions/comments: The council will help disseminate information to other parents and community members and give feedback on our mission and vision statements throughout the year as we edit and improve it. We looked at our current mission and vision statement on our website.

We will notify parents and staff before our next meeting.
