

Site Council Minutes from 5/11/22

5:30-6:30 pm in the Schwegler Art Room

Those in attendance: Tricia Allen-parent, Kaci Haney-parent, Amber Baranski-parent and vice chair, Jared Comfort-principal, Amy Shellhorn-PIF and secretary

Minutes were read and approved

DEN update by Mrs. Shellhorn: Was successful, we had 6 families for 6 weeks the first round and ended with 5 families for 3 weeks during the second round. We shared at our last meeting about the first rounds format and during the 3 week format we decided to have the adults go with Ms. Long and work through the curriculum and book for Love and Logic while the other staff did reading, math and science activities with the students. The rest of our time together was the same as the first round. We would love to continue a similar program next year if there is any funding to do so. We received positive feedback from the families that participated.

Building Goal Check in:

Dr. Comfort shared an update, see some points below:

Voice over with staff voices on slides is going to be part of the presentations now

After looking at climate survey -will address three highest results including -behavior and learning/assessment

And then the three lowest results:

Climate, community and appearance

Started a thriving culture subgroup

Building goal1 &4 : shared K1, $\frac{2}{3}$ and $\frac{1}{4}$ data

They look at the standards and develop a useable format for the students

They utilize their resources to help teach the standard the best way possible

Want to have an essential question for kids to be able to answer based on the standards

Parents asked clarifying questions including:

CFAs vs. DCAs teacher created vs. district created

Every school has to do this

Parents had questions about how much communication happens between other schools and staff in the district, there is some.

Building goal 2:

Having 100% of students experiencing at least 2 strategies of WICOR pulled from the AVID program

Some of the goals on the articulation plan may need to be revisited and rewritten

Modifying AVID goals to fit grade levels

Parent asked about AVID continuing, budget shouldn't change how we use AVID

Goal 3: Safe and Supportive Schools: CI3T implementation

Staff will revise any CI3T plans over the summer

ESC asked our needs: More time and funding to meet and plan for our goals

EOY district forms were filled out. We talked about our goal of sharing site council minutes and information with the Schwegler community and how effective we were at achieving it. We all

agreed that we have shared the minutes and communication effectively via email, the school website and the monthly newsletter. The vice chair will send our results to the district.

Our next meeting will be in the fall of 2022.
