

Online Communication Tools

School Families: We want to call your attention to two online communication tools that the Lawrence Public Schools introduced last year. "Contact Us," found on a tab on our school and district websites, assists individuals who do not know who to contact about a question, suggestion, concern, or even a compliment. By completing a short online form and sharing their contact information, your inquiry is routed to the appropriate staff for a timely response.

"All Students Safe," also found on our website, serves as an online tool for reporting bullying or safety questions or concerns. Users of this tool may choose to hide their contact information. We do find it helpful, though, when investigating safety concerns to have contact information in case additional information is needed.

Please keep in mind that these online tools do not replace direct communication with your child's school. If you have a question or concern relating to the classroom, please contact the teacher. If you have a question or concern about our school, please contact the school office.

We value open communication between home and school. Schwegler school sincerely appreciates your partnership as we seek to provide a safe and welcoming learning environment and a successful school experience for all students. Thank you!
