

Schwegler Mission and Collective Commitments

Our mission is to build a safe and nurturing community where all students and staff can grow socially, emotionally, and academically in order to be college and career ready.

To do this we agree to the following:

We will respect one another's positions and one another as professionals.

We will remain student focused in our work as professionals.

We will work through our established systems and processes with fidelity.

We will maintain positivity. When it is difficult for us to maintain positivity we will look to ask those around us to help trampoline us.

We will maintain a gossip free workplace.

We will handle disputes at the lowest level possible by "calling others in" to resolve conflict.

We will be solutions-focused in our encounters with one another, our students, our families, and community.

We will acknowledge the importance and seriousness of our jobs while incorporating fun and joy into our daily work.

We will work collaboratively and in conjunction to help all students and staff succeed.

We will build PRIDE in our school through our words and deeds.

We will celebrate the accomplishments of our students, staff, and school community.
