Re: Purchase of Secure Entry Card Readers – Lawrence High, Kennedy

Date: June 23, 2016

Background:

Following voter approval in April 2013 of a \$92.5 million school bond issue to improve facilities, enhance technology and expand career and technical educational opportunities, administration transitioned from bond planning to implementation.

A critical piece of the bond construction packages for every school project includes providing safe and secure entries into the buildings. When life safety systems were replaced or upgraded, some card readers became obsolete or no longer compatible with the new systems, requiring the purchase of replacement units. The costs and locations are identified below and are coming to the board for approval.

Lawrence High School	\$19,768.19
Kennedy Elementary School	<u>9,273.85</u>
Total	\$29,042.04

Recommendation:

Administration recommends board approval for payment to American Sentry Electronic Systems, Inc. for secure entry card readers in the amount of \$29,042.04.

Motion:

"I move the Board of Education approve a payment to American Sentry Electronic Systems, Inc. in the amount of \$29,042.04 for secure entry card readers at Lawrence High School and Kennedy Elementary School."
