Re: Agreement for Private Drive at Langston Way & Klein Drive

Date: June 23, 2016

Background:

Lawrence Public Schools plans to build a private drive with sidewalk accessibility extending east/northeast approximately 700 feet through the Langston Hughes Elementary School property to the planned intersection of Langston Way and Klein Drive.

The district has requested that BG Consultants, Inc. design and prepare a construction plan with specifications for the private drive. The project will include design of an urban street, sidewalk, storm sewer improvements and grading. The project will also include investigating alternative solutions to manage storm water drainage at the southernmost driveway accessing George Williams Way. The construction plans and specifications will conform to the most current edition of the City of Lawrence's design criteria for infrastructure improvements along with other state and federal standards.

The design fee with BG Consultants, Inc. for this project is \$26,500.

Recommendation:

Administration recommends board approval of the agreement with BG Consultants, Inc. to provide design services associated with the private drive from the Langston Hughes Elementary School property to the planned intersection of Langston Way and Klein Drive.

Motion:

"I move the Board of Education approve the agreement with BG Consultants, Inc. to provide design services associated with the private drive from the Langston Hughes Elementary School property to the planned intersection of Langston Way and Klein Drive at a cost of \$26,500."
