Re: Purchase of Security Cameras – Pinckney, Sunflower

Date: September 22, 2016

Background:

Construction to buildings within Lawrence Public Schools has created a need for additional security cameras. The district has established the Axis P3224-LV & P3224 LVE security cameras as the districtwide solution.

Rationale:

As the bond construction phase continues, additional security cameras are necessary to provide adequate protection for the district, staff, and students. To ensure continuity and reduce possible disruptions, it is important to purchase new, update existing, and maintain the same model of security cameras throughout the district. The Department of Technology Services has received a quote from Alexander Open Systems (AOS) for additional security cameras necessary for Pinckney and Sunflower Elementary Schools.

Recommendation:

Administration recommends the purchase of the Axis P3224 LV and Axis P3224 LVE security cameras through the Cooperating School Districts of Greater Kansas City Contract NO. C062512 through AOS, based on quote Q122945 in the amount of \$59,192.73 to be paid from the Capital Outlay fund for Technology.

Motion:

"I move the Board of Education approve the purchase of Axis security cameras for Pinckney and Sunflower Elementary Schools from Alexander Open Systems at a cost of \$59,192.73."
