Re: Purchase of Projectors & Installation Services – Pinckney

Date: April 20, 2017

Background:

As USD 497 finishes the bond construction projects this summer, the technology department plans to prepare the remodeled Pinckney Elementary School for instruction in the fall. Over the last two years, the district has established a new standard for projectors as classrooms were to be remodeled.

Rationale:

All projectors and installation services have been purchased and installed through Kansas City Audio Visual (KCAV) for the buildings completing construction for the last three years. Pinckney will be ready for new projectors prior to school starting in the fall of 2017. KCAV has provided the district with a quote for the Pinckney projectors and installation services in the amount of \$29,495.

Recommendation:

Administration recommends board approval for the purchase of projectors and display monitors from KCAV for Pinckney Elementary School at a total cost not to exceed \$29,495 to be paid from the Capital Outlay Instruction Technology budget under State of Kansas Contract #36416.

Motion:

"I move the Board of Education approve the purchase of projectors and installation services for Pinckney Elementary School from Kansas City Audio Visual at a cost not to exceed \$29,495."
