Re: USD 497 Mental Health Support Services

Date: June 22, 2017

Background:

Board Goal II. Ci3T

4. Develop and implement plan for mandatory staff suicide prevention training.

A. Ensure all district staff are trained by January.

5. Continue to explore needs and improve district mental health services.

School-based interventions and the coordination of community services allow district staff to refer students to services to meet their long-term needs. Collaborating with community service providers benefits the school district, students, families and the community.

Current Report:

This report will summarize current programming, update state mandates, show progress on required training and share district-community partnerships. The district's Ci3T framework includes a focus on the social-emotional needs of students.
