Re: Fire Alarm System – Tech Electronics - Boys and Girls Club

Date: September 10, 2018

Background:

At its July 3, 2017 meeting, the board of education approved the 2017 Bond Project Construction Manager at Risk agreement with MarLan Construction for the construction of the Don and Beverly Gardner Center for Great Futures which will house the Lawrence Boys and Girls Club on the Lawrence College and Career Center Campus. As we are finalizing the construction project, the district received a bid for the installation of an audio evacuation fire alarm system.

Bids and Specifications:

The district aligned the specifications to meet district standards for safety and security and will be compatible with the fire alarm system located in the Lawrence College and Career Center. The bid for a Notifier NFS2-640 Onyx Audio Evacuation Fire Alarm System was received from Tech Electronics and will be procured through a Kansas State Contract in the amount of \$32,850.

Recommendation:

Administration recommends board approval for the purchase a Notifier Fire Alarm System for the Don and Beverly Gardner Center for Great Futures from Tech Electronics in the amount of \$32,850 to be paid from the 2017 Bond Project Fund.

Motion:

"I move the Board of Education approve the purchase a Notifier Fire Alarm System for the Don and Beverly Gardner Center for Great Futures from Tech Electronics in the amount of \$32,850 to be paid from the 2017 Bond Project Fund."
