Re: Student Performance Data, Social/Emotional Data; Equity Audit Data

Date: November 9, 2017

Background:

In October, 2016, the USD497 Board of Education established the following Board Goal:

**Goal 1:** Develop and align district expectations for curriculum and instruction to raise the achievement of all students.

Rationale:

The report will revisit the outcomes of the Kansas Assessment Program (English Language Arts and Mathematics); MAP assessment results; and the Equity Audit Data in the area of in-school and out-of-school suspension using longitudinal trend data from 2014 to 2017 (longitudinal data for Kansas Assessments are only available using 2016 and 2017 data).

Data will be portrayed at the district level for each of the above areas.
