Re: Student Performance Data, Social/Emotional Data; Equity Audit Data

Date: October 23, 2017

Background:

In October, 2016, the USD497 Board of Education established the following Board Goal-  
**Goal 1:** Develop and align district expectations for curriculum and instruction to raise the achievement of all students.

Rationale:

The report will focus on the outcomes of the Kansas Assessment Program (English Language Arts and Mathematics) from the 2016-17 school year; how universal screening data from AIMSweb and MAP are portrayed for schools; the data from the behavioral screenings conducted at all levels (2016-17); and the Equity Audit Data from the 2016-17 school year.

Data will be portrayed at the district level for each of the above areas. The data to be presented have been used by schools to plan strategically for the current school year (2017-18).
