Re: Middle School Tech Teams

Date: May 10, 2018

Background:

In spring 2017, all secondary schools were invited to recruit a teacher-sponsor and interested students to form student tech teams to provide technology support to both students and staff. Following formation of the teams, students, their sponsors and learning coaches participated in a day-long workshop in which they identified team goals and projects for the upcoming school year.

Current Report:

This report will summarize the work of the middle school tech teams during the 2017-2018 year school year. Students and sponsors will share successes, lessons learned and plans for teams in 2018-2019.
