Re: Sanitary Sewer Improvements w/RD Johnson Excavating Co., LLC – New York

Date: August 10, 2017

Background:

At its April 28, 2014 meeting, the Board of Education approved the USD 497 2013 Bond Issue Project for bond construction at New York Elementary School. During that project, the need for improvements to the sanitary sewer were identified. The project requires the installation of an 8" Sanitary Sewer Main in the intersection of East 10th Street and New York Street.

The district hired Landplan Engineering, P.A. for the development of project specifications, design, and construction administration services. At its December 12, 2017 meeting the Board of Education approved the low bid from RD Johnson Excavating Co. LLC for construction of the sanitary sewer. Additional costs for this project have been identified and are coming to the board for approval.

Current Contract Sum	\$113,961
Flowable Fill	2,720
Rock Excavation, Labor & Equipment	<u>7,195</u>
New Contract Amount	\$123,876

Recommendation:

Administration recommends board approval of the amended contract with RD Johnson Excavating Co. LLC for the construction of a Sanitary Sewer Main at New York Elementary School.

Motion:

"I move the Board of Education approve the amended contract with RD Johnson Excavating Co. LLC for the construction of a Sanitary Sewer Main at New York Elementary School in the amount of \$9,915."
