

Hi, I'm Ms. Snyder. I'm so happy to be teaching at Sunset Hill. I've slowly worked my way up to the "big kids". I started here as a first-grade teacher, then I moved to second grade, then third grade and now fifth grade! I love teaching and I especially love working with the students and families here at Sunset Hill.

I have been teaching for over 20 years. I started in California, where I was born and raised. Then I moved to Missouri where I taught for 2 years. Finally, I made it to Lawrence. I started in the district as a para-educator teaching math. Every time I drove by Sunset Hill I would say, "There's my school." I guess I wished hard enough because my wish came true and I am so lucky to be here.

Along with teaching, I also love nature, painting, music, movies, and animals. I have always had pets. Growing up we had dogs, cats, birds, chickens, a turtle, fish, hamsters, and bunnies. Now, I have 1 dog, named Bodhi and an aquarium of fish. Some of you might even remember seeing Bodhi when she was a puppy. She's a big girl now and full of energy, that is when she's not napping! She naps a lot!

I'm looking forward to having another fantastic year with our Sunset Hill Elementary family.
