

## WHAT IS A CI3T PLAN?

CI3T is a school-wide program developed to encourage successful behaviors academically, personally, and socially. Each and every student participates just by virtue of being at Schwegler. The goal of this school-wide plan is to equip students with the most beneficial academic, behavioral, and social skills that will support success at school and in life. This plan is also designed to create a more positive school environment.

The CI3T plan is a three-tiered plan, with the expectation that most of our student's needs will be met by the school-wide program. If the primary plan is not sufficient to meet some student's needs, additional levels of support are planned. For example, some students may benefit from small group instruction whereas others may benefit most from one-on-one support. We aim to foster a positive learning environment for all students at Schwegler and support every student for academic, behavioral, and social success.

We encourage you to talk with your student about the expectations matrix and how the plan is working for them.
