

THIS WEEK IN THE GARDEN

FOURTH WEEK OF AUGUST

Harvest of the Month: Tomatoes

Gardening 101

While you are enjoying the summer harvest this is also a the time to be thinking about planting cool season crops for the fall. Pull out dying or over-mature summer plants and weeds to begin preparing space for students to plant beets, radishes, greens and cilantro. Any seeds you can plant in the early spring can also be planted for the fall.

Check out this video from K-State Extension about planting a fall garden! <http://kansashealthyyards.org/all-videos/video/planting-a-fall-garden>

Activities

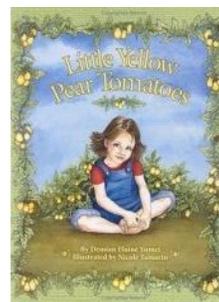

Visit the LPS website for more ways to include Farm 2 School in with your curriculum:
www.usd497.org/farm2school

- ◆ Garden taste test: Have students try one new thing growing in the garden, and vote on if they tried it, liked it or if they would try it again.
- ◆ Parts of a plant: Work with students to create a list of all the parts of a plant that can be eaten and think of an examples of each! (e.g. stem: celery, fruit: tomato)
- ◆ Get students hands on in using their senses. Let partners guide each other through the garden blindfolded. What new smells, sounds, textures, and tastes can they find?

Farm 2 School

Book of the Week

Little Yellow Pear Tomatoes
By Demian Elaine Yumei

Everything we eat comes with a story. This book shares the stories, memories and feelings that live within each yellow pear tomato that

grows in a young girls garden. What stories grow within the food in your school garden?

Take your students to the garden with their journals and encourage them to write on one of the following topics:

Eat Local

Local Tomato Frittata

3 local tomatoes, chopped
1 cup local spinach, chopped
2 dozen local eggs
2 cups milk
8 oz. goat cheese or cream cheese
3 sprigs chives, chopped
3 sprigs thyme, chopped and stems removed
1 bunch parsley, chopped
1 teaspoon salt

Steps

1. Crack eggs into a medium bowl.
2. Add in milk, herbs, salt and pepper. stir until well combined.
3. Spray 12 muffin cups with cooking spray.
4. Divide the tomatoes and spinach evenly among cups.
5. Fill cups halfway with egg mixture.
6. Place a small amount of cheese in each cup.
7. Bake at 325 for 7-12 minutes until just set.

Journal Topics

- ◆ Imagine that you are a seed inside a ripe tomato. What is it like inside? What might you be thinking (if seeds could think)?
- ◆ According to plant scientists (**botanists**), tomatoes are considered fruit because they have seeds. Nutritionally, they are considered vegetables because they aren't too sweet. Which definition do you think is more important? Why?
