

Printer install for Mac Print-to-PrintShop

Go to Launchpad
Self-Service
Then log in
You must log in
Select Printers

Then the RSA SurePDF printer driver can be installed

Install that and then you will have another printer in your dropdown box

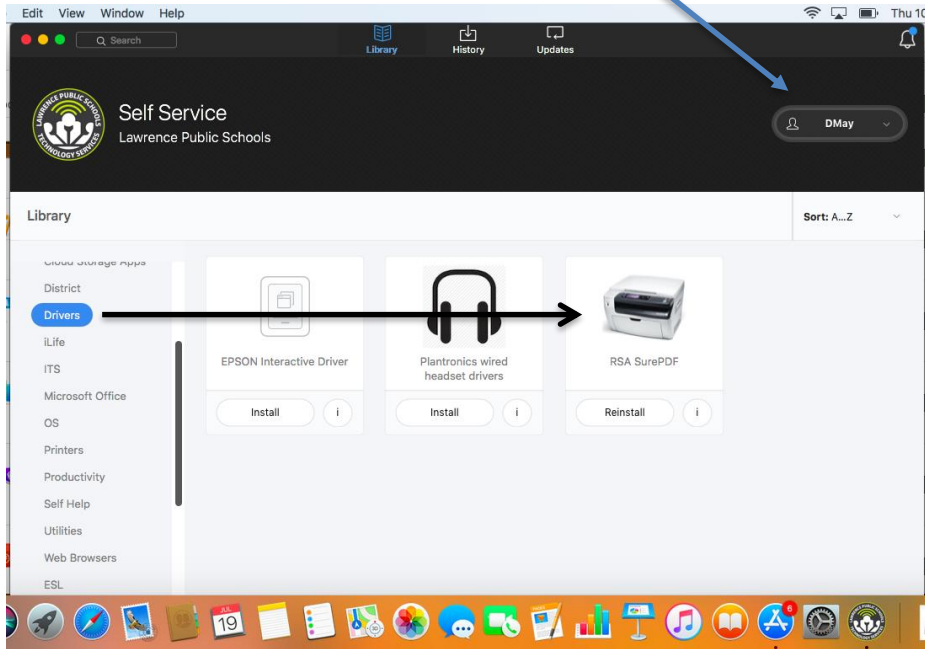

Select that printer and it will convert your file to a PDF and place it in your Cart in the PrintShop website

Then you can configure your print job and place your order

OR

Another way to install the RSA SurePDF Print Driver

You can select drivers from left side
And RSA SurePDF driver
You MUST LOGIN to see the driver

Install that and then you will have another printer in your dropdown box

Select that printer and it will convert your file to a PDF and place it in your Cart in the PrintShop website

Then you can configure your print job and place your order
