Concurrent Credit Partnership

**Head Start on College**

Did you know that you can earn Baker University credit before you graduate from high school? Get a jump start on the next phase of your academic journey by taking courses that fulfill both high school and college requirements and save you college tuition.

Baker’s Concurrent Credit Partnership provides students who have a 3.0 GPA or higher and who attend a partner school or virtual school with the opportunity to obtain college credit while completing high school. If you attend a partner high school, your class will be taught by a highly qualified instructor, supported by Baker faculty, at your school during regular school hours. Or you can take college courses through a virtual platform taught by university faculty during or outside of regular school hours. Ask your high school counselor how you can join the Baker University concurrent credit program!

**SCHOLARSHIP OPPORTUNITY**

As a concurrent credit student, you may be eligible for a scholarship when you attend Baker full time after your high school graduation. We offer a $50,000 scholarship over a four-year, degree-seeking enrollment period to students who earn a C or better in their concurrent credit course.

**AFFORDABLE**

Students pay a reduced rate of just $113 per credit hour. A typical course is 3 credit hours.

**Partner Districts & Organizations**

Basehor-Linwood, Blue Valley, De Soto, Eudora, Hoxie, Lawrence, Olathe, Piper, Shawnee Mission, St. James Academy, Insight School of Kansas, Midwest Parent Educators

the Baker Difference

HIGHEST SALARIES
According to the U.S. Department of Education, Baker alumni earn the highest average salaries among graduates of universities in Kansas.

OUTSTANDING JOB PLACEMENT
The U.S. Department of Education named Baker the university in Kansas most likely to land its graduates a job.

#1 RETURN ON INVESTMENT
According to Georgetown University Center on Education and the Workforce, Baker offers the highest return on investment of colleges in Kansas and is in the top 8% nationwide.

Concurrent Credit Partnership Benefits

Academic and financial advantages:
- CCP courses support a successful transition from high school to college.
- A majority of high school students who complete a CCP course enroll in college or post-secondary training.
- Successfully completing CCP courses improves the likelihood of being accepted into college.
- CCP courses are offered at a lower tuition rate to high school students.
- Students gain exposure to the academic rigor of college while in a supportive and familiar high school environment.
- Collaboration between high school teachers and college faculty partners fosters the alignment of secondary and post-secondary curriculum.
- Students can explore fields of study.
- Credits transfer to post-secondary institutions.
- Students qualify for Baker University scholarships.

Interaction with highly qualified faculty:
- High school staff are master teachers.
- Collaborating Baker University faculty hold doctoral degrees.
- Experience college-level work while receiving support from your high school teacher.
- Your high school counselor will offer guidance in determining readiness for college-level coursework.
